

505-3-.100 SPECIAL EDUCATION PRESCHOOL (AGES 3-5) ENDORSEMENT

(1) Purpose. This rule states field-specific content standards for approving endorsement programs that prepare teachers holding renewable professional certification in Birth Through Kindergarten, Elementary Education (P-5) or any Special Education field to teach students ages 3-5 (below Kindergarten) with disabilities. This rule supplements requirements in GaPSC Educator Preparation Rule [505-3-.01 REQUIREMENTS AND STANDARDS FOR APPROVING EDUCATOR PREPARATION PROVIDERS AND EDUCATOR PREPARATION PROGRAMS](#).

(2) In-Field Statement. Completers of the Special Education Preschool (ages 3-5) Endorsement program are qualified to provide educational services for students aged 3-5 (below Kindergarten) with disabilities other than visual and hearing impaired, under the following conditions:

- (a) The educator may work collaboratively with a content area teacher of record in all content subjects.
- (b) To serve as the teacher of record, the educator may teach only the content subjects of his/her base certificate fields(s).

(3) Requirements.

- (a) A GaPSC-approved educator preparation provider may seek state approval to offer this field as either a stand-alone endorsement program or as an endorsement program embedded in a GaPSC-approved initial preparation program in Elementary Education (P-5) or any Special Education field, or an advanced (degree-only) preparation program. In addition to meeting all applicable approval requirements and standards, embedded endorsement programs must meet requirements specified in paragraph (e) 4. (ix) of GaPSC Educator Preparation Rule [505-3-.01 REQUIREMENTS AND STANDARDS FOR APPROVING EDUCATOR PREPARATION PROVIDERS AND EDUCATOR PREPARATION PROGRAMS](#).
- (b) To receive approval, a GaPSC-approved educator preparation provider shall offer a preparation program described in program planning forms, catalogs, and syllabi addressing the following standards adapted from the Early Interventionist/Early Childhood Special Educator (EI/ECSE) Standards published by the Council for Exceptional Children (2020):
 1. Child Development and Early Learning. Candidates understand the impact of different theories and philosophies of early learning and development on assessment, curriculum, instruction, and intervention decisions. Candidates apply knowledge of normative developmental sequences and variations, individual differences within and across the range of abilities, including developmental delays and disabilities, and other direct and indirect contextual features that support or constrain children's development and learning. Multiple factors are considered when facilitating meaningful learning experiences and individualizing intervention and instruction across contexts.
 - (i) Candidates demonstrate an understanding of the impact that different theories and philosophies of early learning and development have on assessment, curriculum, intervention, and instruction decisions;
 - (ii) Candidates apply knowledge of normative sequences of early development, individual differences, and families' social, cultural, and linguistic differences to support each child's development and learning across contexts;
 - (iii) Candidates apply knowledge of biological and environmental factors that may support or constrain children's early development and learning as they plan and implement early intervention and instruction; and

- (iv) Candidates demonstrate an understanding of characteristics, etiologies, and individual differences within and across the range of abilities, including developmental delays and disabilities, their potential impact on children's early development and learning, and implications for assessment, curriculum, instruction, and intervention.
2. Partnering with Families. Candidates use their knowledge of family-centered practices and family systems theory to develop and maintain reciprocal partnerships with families. They apply family capacity-building practices as they support families to make informed decisions and advocate for their young children. They engage families in opportunities that build on their existing strengths, reflect current goals, and foster family competence and confidence to support their children's development and learning.
- (i) Candidates apply their knowledge of family-centered practices, family systems theory, and the changing needs and priorities in families' lives to develop trusting, respectful, affirming, and culturally responsive partnerships with all families that allow for the mutual exchange of knowledge and information;
 - (ii) Candidates communicate clear, comprehensive, and objective information about resources and supports that help families to make informed decisions and advocate for access, participation, and fairness in the school environment; and
 - (iii) Candidates engage families in identifying their strengths, priorities, and concerns; support families to achieve the goals they have for their family and their young child's development and learning; and promote families' competence and confidence during assessment, individualized planning, intervention, instruction, and transition processes.
3. Collaboration and Teaming. Candidates apply models, skills, and processes of teaming when collaborating and communicating with families and professionals, using developmentally and linguistically responsive and affirming practices. In partnership with families and other professionals, candidates develop and implement individualized plans and successful transitions that occur across the age span. Candidates use a variety of collaborative strategies while working with and supporting other adults.
- (i) Candidates apply teaming models, skills, and processes, including appropriate uses of technology, when collaborating and communicating with families; professionals representing multiple disciplines, skills, expertise, and roles; and community partners and agencies;
 - (ii) Candidates use a variety of collaborative strategies when working with other adults that are evidence-based, appropriate to the task, culturally and linguistically responsive, and take into consideration the environment and service delivery approach; and
 - (iii) Candidates partner with families and other professionals to develop individualized plans and support the various transitions that occur for the young child and their family throughout the birth through kindergarten age span.
4. Assessment Processes. Candidates know and understand the purposes of assessment in relation to ethical and legal considerations. Candidates choose developmentally, linguistically responsive appropriate tools and methods that are appropriate responsive to the characteristics of the young child, family, and program. Using evidence-based and evidence-informed practices, candidates develop or select as well as administer informal measures, and select and administer formal measures in partnership with families and

other professionals. They analyze, interpret, document, and share assessment information using a strengths-based approach with families and other professionals for eligibility determination, outcome/goal development, planning instruction and intervention, monitoring progress, and reporting.

- (i) Candidates understand the purposes of formal and informal assessment, including ethical and legal considerations, and use this information to choose developmentally, and linguistically responsive appropriate, valid, reliable tools and methods that are appropriate responsive to the characteristics of the young child, family, and program;
 - (ii) Candidates develop and administer informal assessments and/or select and use valid, reliable formal assessments using evidence-based and evidence-informed practices, including technology, in partnership with families and other professionals;
 - (iii) Candidates analyze, interpret, document, and share assessment information using a strengths-based approach with families and other professionals; and
 - (iv) Candidates, in collaboration with families and other team members, use assessment data to determine eligibility, develop child and family-based outcomes/goals, plan for interventions and instruction, and monitor progress to determine efficacy of programming.
5. Application of Curriculum Frameworks in the Planning of Meaningful Learning Experiences. Candidates collaborate with families and professionals to use an evidence-based, developmentally appropriate, and responsive early childhood curriculum addressing developmental and content domains. Candidates use curriculum frameworks to create and support universally designed, high quality learning experiences that provide each child and family with access and opportunities for learning and growth.
- (i) Candidates collaborate with families and other professionals in identifying an evidence based curriculum addressing developmental and content domains to design and facilitate meaningful, developmentally responsive learning experiences that support the unique abilities and needs of all children and families; and
 - (ii) Candidates use their knowledge of early childhood curriculum frameworks, developmental and academic content knowledge, and related pedagogy to plan and ensure access to universally designed, developmentally responsive appropriate, and challenging learning experiences.
6. Using Responsive and Reciprocal Interactions, Interventions, and Instruction. Candidates plan and implement intentional, systematic, evidence-based, responsive interactions, interventions, and instruction to support all children's learning and development across all developmental and content domains in partnership with families and other professionals. Candidates facilitate access and participation for all children and families through culturally responsive and affirming practices and relationships. Candidates use data-based decision-making to plan for, adapt, and improve interactions, interventions, and instruction to ensure fidelity of implementation.
- (i) Candidates, in partnership with families, identify systematic, responsive, and intentional evidence-based practices and use such practices with fidelity to support young children's learning and development across all developmental and academic content domains;

- (ii) Candidates engage in reciprocal partnerships with families and other professionals to facilitate responsive adult-child interactions, interventions, and instruction in support of child learning and development;
 - (iii) Candidates engage in ongoing planning and use flexible and embedded instructional and environmental arrangements and appropriate materials to support the use of interactions, interventions, and instruction addressing developmental and academic content domains, which are adapted to meet the needs of each and every child and their family;
 - (iv) Candidates promote young children's social and emotional competence and communication, and proactively plan and implement function-based interventions to prevent and address challenging behaviors;
 - (v) Candidates identify and create multiple opportunities for young children to develop and learn play skills and engage in meaningful play experiences independently and with others across contexts;
 - (vi) Candidates use responsive interactions, interventions, and instruction with sufficient intensity and types of support across activities, routines, and environments to promote child learning and development and facilitate access, participation, and engagement; and
 - (vii) Candidates plan for, adapt, and improve approaches to interactions, interventions, and instruction based on multiple sources of data across a range of settings.
7. **Professionalism and Ethical Practice.** Candidates identify and engage with the profession of early intervention and early childhood special education (EI/ECSE) by exhibiting skills in reflective practice, advocacy, and leadership while adhering to ethical and legal guidelines. Evidence-based and recommended practices are promoted and used by candidates.
- (i) Candidates engage with the profession of EI/ECSE by participating in local, regional, national, and/or international activities and professional organizations;
 - (ii) Candidates engage in ongoing reflective practice and access evidence-based information to improve their own practices;
 - (iii) Candidates exhibit leadership skills in advocating for improved outcomes for young children, families, and the profession, including the promotion of and use of evidence-based practices and decision-making; and
 - (iv) Candidates practice within ethical and legal policies and procedures.
