Discussion:

It is proposed that GaPSC Rule 505-2-.10 PERMIT, dated October 15, 2018, be AMENDED to revise the numbering of a section and update the years of occupational experience required for a permit in a performing arts field.

Current/Amended Sections(s):

(Additions are underlined in bold type; deletions are marked through.)

(1) Purpose. The permit is a type of renewable certificate designed for individuals who qualify to teach in specific fields based on a combination of work experience, specified educational requirements and assessment(s). Permitted personnel include: individuals with fluency in a language other than English; performing artists from the fields of art, dance, drama or music; Junior Reserve Officer's Training Corps (JROTC) personnel; and teachers and leaders from business, government, military or other professions.

(2) Fields of Issuance. Permits are issued in the following fields: career and technical specializations, engineering and technology, and healthcare science; foreign languages; art, dance, drama or music; JROTC and the Educational Leadership position of Superintendent.

(3) Restrictions.

(a) A permit cannot be issued to individuals in the following circumstances:

1. Those who have been previously certified in Georgia but have not passed the required content assessment(s) will not be eligible for a permit in the same field;

2. Those who have un-remediated "Unsatisfactory," "Needs Development" or "Ineffective" performance evaluations as defined in GaPSC Rule [505-2-.43 ANNUAL PERFORMANCE EVALUATION](#); or

3. Those who hold or have held an Induction certificate but have not successfully completed requirements to convert to a renewable professional certificate.

(b) Permits must be requested by an employing Georgia local unit of administration (LUA). As part of the application packet the unit must verify by completing the GaPSC Employer Assurance Form that the permit applicant is the best-qualified individual available for the position. Should a Permit holder change LUAs, it is not necessary to issue a new permit until the end of the validity period. However, the gaining LUA is responsible for developing a new Professional Learning Plan (PLP).

(4) Endorsements. Permit holders are not eligible to add endorsement fields, with the following exceptions: permit holders in foreign language fields may add the ESOL endorsement; permit holders in Drama and Audio/Video Technology & Film may add the Dramatic Writing micro-endorsement; and permit holders in teaching fields may add the Online Teaching endorsement. Information on the endorsement requirements may be found in the appropriate endorsement rules.

(5) Resource Support.

(a) The LUA shall establish a mentor system to provide permitted personnel with orientation to the school, guidance for basic principles of classroom management, and support as they adjust to the school work place.

(b) An Professional Learning Plan (PLP) shall be locally developed and implemented for the validity period of the permit. This plan must incorporate all Special Georgia Requirements to include course work in the identification and education of children with special education needs. The plan shall also address such areas as the development and assessment of teacher competence in the areas of learner characteristics and curriculum and methods specific to the age level and certificate field issued. It is appropriate for the plan to include prescribed course work. For example, a course in methods for teaching foreign languages in grades P-12 might be required for international speakers permitted to teach foreign languages. This plan must be developed at the beginning of the validity period and used to guide the permit holder's professional learning activities to support the school improvement plan and enhanced student achievement. The plan must be satisfied by the educator and maintained locally by the LUA.

(6) Validity. The initial permit is valid for three (3) years and may be extended for multiple three (3)-year cycles upon completion of specific requirements outlined in correspondence accompanying the Permit and "Satisfactory," "Proficient" or "Exemplary" performance evaluations on the statewide evaluation instrument.

(7) Foreign Language.

(a) An individual with fluency in a foreign language for which Georgia has a certificate field may receive an initial permit if all of the following conditions have been met:

(c) The foreign language permit is suggested as a means to utilize international speakers to teach the less-commonly taught languages which have been approved for the Georgia P-12 curriculum, such as

Arabic, Chinese (Mandarin), Hebrew, Italian, Japanese, Korean, Portuguese, Russian, Swahili, Hindi, Urdu and Turkish. NOTE: A Permit is not available in the language field of Greek (Classical).
