West GA	125	1	126	54	4	58
Total	574	72	646	341	105	446

Source Notes:

Final data was drawn from TPMS and the Certification Recommendation database on the week of Dec. 9, 2015.

AY 2014 is two months longer than AY 2015 because the cutoff month for reporting was changed from July to September in that year.

27 individuals have no matched certification ID. 23 individuals have no listed certification field code, although most appear in initial cert programs.

11 individuals appear as completers in both 2014 and 2015 and are counted in both years; the majority are in the same program and field both years.

Some individuals appeared in both initial and advanced programs in the same year; they were counted only in the initial program.
